

Brock, Frank

Subject: Discuss Orange County Campground Info
Location: Your Place

Start: Mon 9/9/2013 3:00 PM
End: Mon 9/9/2013 3:30 PM

Recurrence: (none)

Meeting Status: Meeting organizer

Organizer: Brock, Frank
Required Attendees: Kraft, Nicole

Spoke to John Conrad (consultant) as well today. He indicated that it appears several of the septic systems at the campground may not be covered by the SPDES permit. Also indicated they are a PWSS – county has been helping them with their monitoring for many years. John said it is unclear how many septic systems are at the campground or their construction. The original plans called for drainfields but several may be using leaching chambers instead. I told them our first step will likely be to tell them to submit inventory – number of systems, construction, if all have septic tanks, etc. He indicated they had sampled the septic tank constructed on Ms. Dembeck's property and found several organics including methylene chloride, xylene and a couple others. May not be sanitary waste only??
